

Streamlined Energy & Carbon Reporting (SECR)

Company Name: Example Business
Report Year: 2025

Prepared by
The Carbon Stamp

Company Information

Reporting Company: [Insert Company Name]

Company Number: [Insert Company Number]

Reporting Period: [Start Date] – [End Date]

Previous Period: [Start Date] – [End Date]

Boundary Approach: Operational Control (in line with the GHG Protocol Corporate Standard)

Registered Address: [Insert Address]

Introduction

This report has been prepared to meet the requirements of the UK Government's Streamlined Energy and Carbon Reporting (SECR) framework. It summarises the greenhouse gas (GHG) emissions and energy usage associated with **[Company Name]'s** UK operations during the stated reporting period.

Calculations are based on the Greenhouse Gas Protocol Corporate Accounting and Reporting Standard and conversion factors issued by DEFRA / DESNZ (2025).

Methodology

- Framework: GHG Protocol Corporate Standard
- Emission Factors: UK Government (DESNZ 2025)
- Scope Boundary: All UK operations under operational control
- Electricity Emissions: Reported using the location-based approach
- Data Sources: Utility bills, fleet fuel records, business travel data, and internal metering

Assumptions & Exclusions:

Any assumptions or data gaps are documented here.

[Example: "Minor exclusions (<1% of total emissions) due to incomplete supplier data for small leased assets."]

Energy Use & GHG Emissions

(Reporting Period: 1 January 2024 – 31 December 2024)

Total Energy & Emissions Overview

Category	Associated Energy Use (kWh)	Emissions (tCO ₂ e)	% of Total
Scope 1	182,450	38.7	24%
Scope 2	298,320	42.5	26%
Scope 3	661,200	83.2	50%
Total	1,142,000	164.4	100%

All emissions calculated using UK Government DEFRA/DESNZ 2025 conversion factors.

Scope Breakdown

Emission Scope	Source	Energy (kWh)	Current Emissions (tCO ₂ e)	Previous Year (tCO ₂ e)
Scope 1	Natural Gas (heating)	165,000	33.4	37.1
	Company Vehicles (diesel/petrol)	17,450	5.3	7.8
Scope 2	Purchased Electricity (location-based)	298,320	42.5	48.9
	Electric Vehicles (charging)	6,200	1.1	0.8
Scope 3	Business Travel (grey fleet, air)	22,800	6.7	5.9
	Waste & Recycling	9,400	1.8	2.1
	Purchased Goods & Services	465,000	62.5	68.0
	Transmission & Distribution Losses	164,000	12.2	13.5
Total		1,142,000	164.4	184.1

Intensity Metric

Metric	2025	2024
Total tCO ₂ e per employee	[X]	[X]
Total tCO ₂ e per £m turnover	[X]	[X]

Energy Efficiency & Carbon Reduction Initiatives

Implemented Actions (Reporting Year)

- Completed annual energy audit across all sites
- Transitioned company fleet to hybrid/electric vehicles
- Introduced staff training on low-carbon commuting
- Installed LED lighting and upgraded insulation in facilities

Planned Actions (Next Reporting Period)

- Expand renewable energy procurement (target: 100% by 2026)
- Conduct full Scope 3 assessment to map supply chain emissions
- Introduce energy management KPIs for facility managers
